October 25, 2016
February 7, 2017
March 21, 2017

Thank you for serving on DAAC!
Take-a-ways

District Improvement Plan: DAAC Input

Every school district is required to have a District Improvement Plan that is developed, evaluated, and revised annually. The purpose of the District Improvement Plan is to guide district and campus staff in the improvement of student performance for all student groups. In its advisory role, the DAAC assists the district in the annual development, evaluation, and revision of the District Improvement Plan.

Performance Objectives in the District Improvement Plan are aligned to the five district goals:
1. Each student will be fully prepared to reach his/her potential.
2. PfISD Learning Communities will provide a safe and nurturing school environment.
3. PfISD will attract, develop, and retain world class educators committed to serving each student.
4. PfISD will develop and promote positive community relations through effective communication, involvement of stakeholders, and establishment of business and community partnerships.
5. PfISD will support the District’s vision and mission by supporting operations that are effective, efficient, and accountable.

PD Conference Survey Results

- The overall survey results from the 2016 Professional Learning Conference were positive.
- The Professional Learning Team will work with the Professional Learning Steering Committee to examine the results and work toward improvements for 2017.
- The October 10th District Professional Learning Day will focus on Balanced Literacy with Technology Integration in Elementary and Responsive Teaching and Technology Integration at Secondary.

2016 Assessment Plan

- The district assessment plan was developed with input from the district Assessment Task Force, a group of 38 teachers, 13 instructional coaches and 9 campus administrators.
- In PfISD the purpose of assessment is to find out where our students are, how they have grown, and what progress they have made in order to inform instruction and guide students toward mastery in their learning.
- Pflugerville ISD delivers a balanced system of both formative and summative assessments which provides credible and focused information on overall patterns of performance, strengths and weaknesses related to student learning and instructional programs, and feedback on how to improve student learning.
- PfISD’s assessment system will assist in promoting student learning and growth.

The complete district assessment plan and calendar can be found on the district website (Click on Departments->Curriculum->Assessment Calendars) Link: http://www.pfisd.net/Page/4450
